Momentum Global Managed Fund IC Limited

Annual Report and Audited Financial Statements for the year ended 30 June 2021

Investment Manager's Report

Global equities enjoyed a strong second quarter, rising 7.4% in US dollar terms to add to the 4.6% gains they recorded in Q1. Emerging markets lagged developed markets for the second successive quarter, up 5.0%, due to stuttering vaccination programmes. Credit spreads tightened, resulting in reasonable returns for corporate credit, while global property securities outperformed, up 8.1%.

Momentum Global Managed Fund (the "Fund") retains a meaningful allocation to equities, listed property and infrastructure and corporate credit and therefore participated in these returns. Asset allocation was slightly negative, but this was offset by manager selection within the fixed income component of the Fund, with good performances from Sequoia and Muzinich in particular.

The long end of the yield curve (bonds with a longer time to maturity) outperformed the front end, where yields rose in response to the Federal Reserve's hawkish shift in June, as Fed governors acknowledged that inflation pressures may prompt them to raise interest rates sooner than they had expected. This favoured our positioning in longer maturity bonds.

Our allocation to emerging market debt also performed well, as spreads tightened over the quarter, with investors happy to pay more for these bonds as belief in a coordinated global recovery strengthened.

Sequoia Economic Infrastructure Income Fund, our infrastructure loans specialist, outperformed meaningfully over the quarter. The trust continues to pay a 6% dividend yield, which seems reasonable value to us given the managers' strong track record, including through the crisis. One of the notable changes they have made to the portfolio in recent years is to increase the exposure to digital infrastructure. The sector represents around 18% of the portfolio today, spanning data centres, sub-sea fibre, telecom towers and broadband.

Over the past 12 months, the key contributor to performance has been equity manager selection. Our top performing manager was deep value specialist Contrarius with an impressive return of 158.5% over the 12 month period. The manager delivered significant alpha through stock selection within the Consumer Discretionary sector, as well as in the Materials sector with exposure to profitable miners of metals such as copper which were in high demand. At the other end of the spectrum, our small cap growth manager Granahan was also a strong performer, delivering 60.9% over the period. The drivers of return in this instance were from highly innovative technology companies which have benefitted from the increase in people working from home online during the pandemic.

We increased the Fund's exposure to UK equities at the end of the quarter. The UK looks set to be among the first countries to exit the pandemic on a sustainable basis, as a result of its advanced vaccination programme and the high rate of vaccine uptake by citizens, offering support to sterling assets that have been dogged by issues in recent years (Brexit; the bungled initial response to the pandemic), as reflected in the stock market's 83% underperformance versus the US over the past 5 years.

We also added a position in the Japanese yen, which looks undervalued to us, while at the same time offering attractive properties when held alongside our existing investments, namely protection during risk-off periods.

Global equities have added 12% over the first half of the year and within that we've seen a significant rotation into energy and financials, with the former up 30% and the latter up just less than 20%. The recent rise in COVID-19 cases around the world has been significant, prompting countries including the US, Japan, Australia and South Africa to introduce additional restrictions. However, the latest data from the UK, where the dominant strain is the more transmissible delta variant and where social restrictions are markedly relaxed compared to where they were at the start of the year, is promising, with declining ratios of hospitalisations and deaths to COVID-19 cases. The latest data has not changed our view that vaccine programmes offer a credible path out of the pandemic for economies. We cannot rule out the chance that equity markets consolidate following their strong start to the year and hence we own protective assets in the form of Treasuries, precious metals and cash. However, when we look at what we expect to earn from companies in terms of their future earnings and cashflows, and compare that to prevailing share prices, we think equities and other economically sensitive assets continue to offer good returns from here, notwithstanding bouts of volatility.

Momentum Global Managed Fund IC Limited

Annual Report and Audited Financial Statements for the year ended 30 June 2021

Directors' Report

The Directors present their annual report together with the audited financial statements of Momentum Global Managed Fund IC Limited (the "Incorporated Cell" or "Cell") for the year ended 30 June 2021.

Principal activities

The Cell with company number 47780 is a Guernsey registered, Limited Liability Incorporated Cell of Momentum Mutual Fund ICC Limited (the "Company"). The activities and objectives of the Cell can be found in note 1 on page 15.

Going concern

The Directors have made an assessment of going concern including consideration of the ongoing impact of the COVID-19 global pandemic on the Cell. Refer to note 2 for the detailed disclosure.

Directors

The Directors of the Cell during the year and at the date of this report are set out on page 3.

Directors' interests

None of the Directors who held office during the year and at the date of this report had any disclosable interests in the shares of the Incorporated Cell.

Directors' responsibilities

The Directors are responsible for preparing the financial statements for each financial year, which give a true and fair view, in accordance with applicable Guernsey law and International Financial Reporting Standards, of the state of affairs of the Incorporated Cell and of the profit or loss for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis, unless it is inappropriate to presume that the Incorporated Cell will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Incorporated Cell and enable them to ensure that the financial statements comply with The Companies (Guernsey) Law, 2008 and The Protection of Investors (Bailiwick of Guernsey) Law, 1987. They are also responsible for safeguarding the assets of the Incorporated Cell and hence, for taking reasonable steps for the prevention and detection of fraud and other irregularities.

So far as each Director is aware, there is no relevant audit information of which the Incorporated Cell's auditor is unaware and each Director has taken all the steps they ought to have as a Director to make themselves aware of any relevant audit information and to establish that the Incorporated Cell's auditor is aware of that information.

The Board of Directors confirms that, throughout the period covered by the financial statements, the Cell complied with the Code of Corporate Governance issued by the Guernsey Financial Services Commission, to the extent it was applicable based upon its legal and operating structure and its nature, scale and complexity.

The annual report together with the audited financial statements of the Incorporated Cell are published on the Manager's website. The Manager is responsible for the maintenance and integrity of the website; the work carried out by the auditor does not involve consideration of these matters and, accordingly, the auditor accepts no responsibility for any changes that may occur to the financial statements after they are initially presented on the website. The Directors appreciate there is uncertainty regarding legal requirements of information published on the internet as it is accessible in many countries and legislation in Guernsey governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Independent auditors

Ernst & Young LLP have indicated their willingness to continue in office. The reappointment of Ernst & Young LLP will be proposed within the next written resolution to deal with annual business.

Momentum Global Managed Fund IC Limited Annual Report and Audited Financial Statements for the year ended 30 June 2021

Independent Auditor's Report to the Members of Momentum Global Managed Fund IC Limited

Opinion

We have audited the financial statements of Momentum Global Managed Fund IC Limited (the "Incorporated Cell") for the year ended 30 June 2021 which comprise the Statement of Comprehensive Income, the Statement of Changes in Net Assets Attributable to Holders of Participating Redeemable Shares, the Statement of Financial Position, the Statement of Cash Flows and the related notes 1 to 17, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards.

In our opinion, the financial statements:

- ▶ give a true and fair view of the state of the Incorporated Cell's affairs as at 30 June 2021 and of its profit for the year then ended;
- ▶ have been properly prepared in accordance with International Financial Reporting Standards; and
- ▶ have been properly prepared in accordance with the requirements of The Companies (Guernsey) Law, 2008 and Protection of Investors (Bailiwick of Guernsey) Law, 1987.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Incorporated Cell in accordance with the ethical requirements that are relevant to our audit of the financial statements, including the UK FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Incorporated Cell's ability to continue as a going concern for a period to 31 December 2022 from when the financial statements are authorised for issue.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the Incorporated Cell's ability to continue as a going concern.

Other information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and in doing so consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters in relation to which The Companies (Guernsey) Law, 2008 requires us to report to you if, in our opinion:

- ▶ proper accounting records have not been kept by the Incorporated Cell; or
- ▶ the financial statements are not in agreement with the Incorporated Cell's accounting records and returns; or
- ▶ we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 5, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Incorporated Cell's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Incorporated Cell or to cease operations, or have no realistic alternative but to do so.

**Momentum Global Managed Fund IC Limited
Annual Report and Audited Financial Statements for the year ended 30 June 2021**

Independent Auditor's Report to the Members of Momentum Global Managed Fund IC Limited (Continued)

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

- ▶ We obtained an understanding of the legal and regulatory frameworks that are applicable to the Incorporated Cell and determined that the most significant are those that relate to the reporting framework (International Financial Reporting Standards, The Companies (Guernsey) Law, 2008 and Protection of Investors (Bailiwick of Guernsey) Law, 1987);
- ▶ We understood how the Incorporated Cell is complying with those frameworks by making enquiries of management and those responsible for compliance matters and corroborated this by reviewing minutes of meetings of the Board of Directors and correspondence between the Incorporated Cell and the Guernsey Financial Services Commission. We gained an understanding of the Board's approach to governance, demonstrated by its review of compliance reports, the investment manager's reports and internal control processes;
- ▶ We assessed the susceptibility of the Incorporated Cell's financial statements to material misstatement, including how fraud might occur by considering the risk of management override and by identifying the recognition of realised gains and losses on investments at year-end (cut-off) as a fraud risk. We considered the controls the Incorporated Cell has established to address the risk identified by the directors or that otherwise seek to prevent, detect or deter fraud and how management and those charged with governance monitor those controls. We also considered the existence of any stakeholder influences which may cause management to seek to manipulate the financial performance and did not note any;
- ▶ Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved the review of minutes of meetings of the Board of Directors; review of compliance reports; review of correspondence with the Guernsey Financial Services Commission; making inquiries of those charged with governance; and performance of journal entry testing based on our risk assessment and understanding of the business, with a focus on non-standard journals and those relating to areas with an identified associated fraud risk, as described above.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at <https://www.frc.org.uk/auditorsresponsibilities>. This description forms part of our auditor's report.

Use of our report

This report is made solely to the Incorporated Cell's members, as a body, in accordance with Section 262 of The Companies (Guernsey) Law 2008 and Paragraph 4.02(3) of the Authorised Collective Investment Schemes (Class B) Rules, 2013. Our audit work has been undertaken so that we might state to the Incorporated Cell's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Incorporated Cell and the Incorporated Cell's members as a body, for our audit work, for this report, or for the opinions we have formed.

Momentum Global Managed Fund IC Limited
Annual Report and Audited Financial Statements for the year ended 30 June 2021

Notes to the Financial Statements

1. General information

The Momentum Global Managed Fund IC Limited (the "Incorporated Cell" or "Cell") with company number 47780, is a Guernsey registered, Limited Liability Incorporated Cell of Momentum Mutual Fund ICC Limited (the "Company").

The Cell's investment activities are managed by Momentum Wealth International Limited (the "Manager"), with the investment management delegated to Momentum Global Investment Management Limited (the "Investment Manager").

The Cell aims to operate with a balance between capital preservation and appreciation. A significant proportion of the portfolio will be held in the base currency and will invest into a wide range of asset classes including equities, alternative strategies and property. As such, some degree of volatility is to be expected and Cell is aimed at investors with a medium risk tolerance.

The Cell intends to achieve its investment objective by investing globally, primarily via other Collective Investment Schemes, in a wide range of asset classes including cash, bonds, property, alternative strategies and equities. The Cell is suitable for investors with a time horizon of over 5 years. The Cell may invest in the units of Collective Investment Schemes which are also managed by the Manager or an associate of the Manager.

During the year, on 7 December 2020, amendments were made to the Supplemental Prospectus of the Incorporated Cell, implementing the following changes with effect from that date:

- Reference to Financial Service Board ("FSB") was changed to Financial Sector Conduct Authority ("FSCA") of South Africa.
- New share Class was launched in the Cell being Class C ZAR Shares.
- Definitions - definition of Subscription Price, Minimum Initial Investment and Classes of Participating Shares were amended to include Class C ZAR Shares.
- Fees - Distribution Partner fee, Investment Management fee and Management and Administration fee have been amended to include the Class C ZAR shares. Additional information on these fees is in note 14.

The financial statements were authorised for issue by the Board of Directors on 3 November 2021.

2. Summary of significant accounting policies

The principal accounting policies detailed below have been consistently applied in the preparation of the financial statements.

2.1 Basis of preparation

The financial statements for the Incorporated Cell have been prepared on a going concern basis, in accordance with International Financial Reporting Standards ("IFRS"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss (including derivative financial instruments).

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates, which are disclosed in note 4 of these Incorporated Cell's financial statements. It also requires the Board of Directors to exercise its judgement in the process of applying the Incorporated Cell's accounting policies.

The financial statements for the Incorporated Cell have been prepared on a going concern basis, in accordance with International Financial Reporting Standards ("IFRS"). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss (including derivative financial instruments).

Going concern

The COVID-19 pandemic and the resultant uncertain economic environment and financial market volatility caused by it continues to create uncertainty in the operating environment of the Cell. All service providers have continued to operate effectively throughout the relevant COVID-19 local government restrictions. No concerns regarding liquidity, valuations or COVID-19 service provider issues have been identified that cause the Board to have any concern regarding the ongoing operation of the Cell or that require any changes to the financial statements of the Cell.

Notwithstanding the challenges arising from the impact of the COVID-19 virus, the Cell continues to operate, administer and price the funds in accordance with regulatory requirements and in accordance with relevant accounting standards. The Cell will continue to monitor fund liquidity and market volatility to ensure funds are managed in the best interests of shareholders.

At the time of approving the financial statements, the Board has assessed redemption levels and there have been no significant redemptions. The Board has also considered the liquid nature of the investment portfolio, the absence of any borrowings or commitments and the economic viability of the Cell which is driven by its net asset value.

After careful consideration, the Board are satisfied that the Cell has sufficient liquidity to meet its liabilities for the period to 31 December 2022 and therefore it is appropriate to adopt the going concern basis in preparing the financial statements and they have a reasonable expectation that the Cell will continue in existence as a going concern.

2.2 Adoption of new and revised standards

Standards, amendments and interpretations effective during the year

The following accounting standards, amendments and interpretations became effective for the first time in this reporting period:

Periods beginning on or after 1 January 2020:

- (a) Definition of a Business (Amendments to IFRS 3)
- (b) Amendments to References to the Conceptual Framework in IFRS Standards
- (c) Definition of Material (Amendments to IAS 1 and IAS 8)
- (d) Interest Rate Benchmark Reform - phase 1 (Amendments to IFRS 9, IAS 39 and IFRS 7)

Notes to the Financial Statements

2. Summary of significant accounting policies (continued)

2.2 Adoption of new and revised standards (continued)

Periods beginning on or after 1 June 2020:

(e) COVID-19-Related Rent Concessions (Amendment to IFRS 16)

In March 2021, the IASB issued COVID-19-Related Rent Concessions beyond 30 June 2021, which extended the availability of the practical expedient by one year.

The adoption of these standards has not had a material impact on the financial statements of the Incorporated Cell.

Standards, amendments and interpretations in issue not yet effective

A number of new standards, amendments and interpretations are effective for annual periods beginning on or after 1 January 2021, and have not been early adopted in preparing these financial statements. These include:

(a) Interest Rate Benchmark Reform - phase 2 - Effective from 1 January 2021

Amendments to assist in the application of IFRS standards when changes are made to contractual cash flows or hedging relationships due to the IBOR reforms.

(b) IAS 16 - Property, Plant and Equipment - Effective from 1 January 2022

Amendments prohibiting a company from deducting from the cost of property, plant and equipment amounts received from selling items produced.

(c) IAS 1 - Presentation of Financial Statements (Amendments) - Effective from 1 January 2023

Amendments regarding classification of liabilities and disclosure of accounting policies.

(d) IAS 8 - Accounting Policies, Changes in Accounting Estimates and Errors - Effective from 1 January 2023

Amendments regarding the definition of accounting estimates.

(e) IFRS 17 – Insurance Contracts. Effective from 1 January 2023

The Board anticipates that the adoption of these standards, which will be adopted in the period which they become effective, will not have a material impact on the financial statements of the Cell.

The Directors have adopted a policy of applying new standards and interpretations when they become effective.

2.3 Foreign currency translation

(a) Functional and presentation currency

The currency in which the financial information is shown in the financial statements of the Incorporated Cell is deemed to be its functional and presentational currency. In arriving at the functional currency, the Directors have considered the primary economic environment of the Incorporated Cell, and in doing so have considered the currency in which the original capital was raised, any distributions are to be made, performance is evaluated and ultimately, the currency in which capital would be returned on break up basis. They have also considered the currency to which the majority of the underlying investments are exposed and liquidity is managed. The Directors are of the opinion that the currency selected best represent the functional currency.

(b) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income. Translation differences on non-monetary financial assets and liabilities such as equities at fair value through profit or loss are recognised in the Statement of Comprehensive Income within the fair value net gain or loss.

2.4 Financial assets and financial liabilities at fair value through profit or loss

(a) Classification

The Incorporated Cell classifies its investments in Collective Investment Schemes, equities, and related derivatives as financial assets or financial liabilities at fair value through profit or loss. These financial assets and financial liabilities are classified by the Board of Directors at fair value through profit or loss at inception. The Incorporated Cell does not classify any derivatives as hedges in a hedging relationship. Financial assets and financial liabilities are designated at fair value through profit or loss at inception, are managed, and their performance evaluated on a fair value basis in accordance with the Incorporated Cell's documented investment strategy. The Incorporated Cell's policies are for the Investment Manager and the Board of Directors to evaluate the information about these financial assets on a fair value basis together with other related financial information.

(b) Recognition/derecognition

Regular-way purchases and sales of investments are recognised on the trade date of the underlying security, so long as the underlying transaction has been confirmed by the relevant counterparty as at the Statement of Financial Position date. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Incorporated Cell has transferred substantially all risks and rewards of ownership.

(c) Measurement

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed in the Statement of Comprehensive Income of the Incorporated Cell. Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income in the period in which they arise.

Notes to the Financial Statements

2. Summary of significant accounting policies (continued)

2.4 Financial assets and financial liabilities at fair value through profit or loss (continued)

(d) Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and trading securities) are based on quoted market prices at the close of trading on the reporting date. The Incorporated Cell adopted to utilise the last traded market price for both financial assets and financial liabilities where the last traded price falls within the bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value. As a practical expedient to establish fair value within the bid-ask spread, management will use mid-market pricing. The market price used for assets which are not traded in active markets are those as supplied by their fund administrators.

2.5 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

2.6 Forward currency contracts

Forward foreign currency contracts are treated as derivative contracts and as such are recognised at fair value on the date on which they are entered into and subsequently remeasured at their fair value. Fair value is determined by rates in active currency markets. All derivatives are carried as assets when fair value is positive and as liabilities when fair value is negative. The gain or loss on remeasurement to fair value is recognised immediately through profit or loss in the Statement of Comprehensive Income within other losses and gains in the period in which they arise.

2.7 Cash and cash equivalents

Cash and cash equivalents include cash in hand, demand deposits and other short-term highly liquid investments with original maturities of three months or less and bank overdrafts.

2.8 Other financial instruments

For other financial instruments, including amounts due to and from brokers and all receivables and payables, the carrying amounts as shown in the Statement of Financial Position approximate to fair value due to the short-term nature of these financial instruments.

2.9 Share capital

The Incorporated Cell has an authorised share capital of 100 Management Shares of USD1.00 each and an unlimited number of no par value participating redeemable shares.

(a) Management Shares

Management shares were issued to comply with Guernsey Company Law, prior to its revision in 2008, under which there had to be a class of non redeemable shares in issue in order that participating redeemable shares may be issued. The Management Shares are beneficially owned by the Manager, do not carry any right to dividends, are only entitled to vote at shareholder meetings where there are no participating redeemable shares in issue within the Incorporated Cell and are only entitled to return of capital on the winding up of the Incorporated Cell.

The Incorporated Cell has issued 2 Management Shares.

(b) Participating redeemable shares

The Incorporated Cell's capital is represented by participating redeemable shares with no par value each carrying one vote, no matter which share class. Each share class carries identical rights, the only difference between the classes being either the management fee or the distribution partner fee which is charged to each class. These fees are disclosed in note 14.

The participating redeemable shares are redeemable at the holder's option and are classified as financial liabilities. Participating redeemable shares can be put back to the Incorporated Cell at any time for cash equal to a proportionate share of the Incorporated Cell's net asset value. The participating redeemable share is carried at the redemption amount that is payable at the Statement of Financial Position date if the holder exercises the right to put the share back to the Incorporated Cell.

All participating redeemable shares will rank equally for all dividends and other distributions, as adjusted to reflect any differences in the fees to which each class of participating redeemable share is subject. They are entitled to payment of a proportionate share based on the Cell's net asset value per share on the redemption date. The Cell has no restrictions or specific capital requirements on the subscriptions and redemptions of shares. The relevant movements are shown on the Statement of Changes in Net Assets Attributable to Holders of Participating Redeemable Shares. In accordance with the Cell's investment objectives, and its risk management policies, the Cell endeavours to invest the subscriptions received in appropriate investments while maintaining sufficient liquidity to meet redemptions, such liquidity being augmented by short-term borrowings or disposal of listed securities where necessary.

To determine the net asset value of the Cell for subscriptions and redemptions, investments have been valued based on the last traded market prices as of the close of business on the relevant trading day.

2.10 Increase/(decrease) in net assets attributable to holders of participating redeemable shares from operations

Income not distributed is included in Net Assets Attributable to Holders of Participating Redeemable Shares of the Incorporated Cell's financial statements.

Notes to the Financial Statements

2. Summary of significant accounting policies (continued)

2.11 Capital risk management

The fair value of the Cell's financial assets and financial liabilities approximate to its carrying amounts at the reporting date. For the purposes of this disclosure, shares are considered to be capital.

The Incorporated Cell's objective when managing capital is to safeguard its ability to continue as a going concern in order to provide returns for shareholders. There are no externally imposed capital requirements on the Incorporated Cell. The Incorporated Cell has no intention to borrow, other than to fund short-term liquidity requirements. The Incorporated Cell may arrange an overdraft facility for such purposes.

2.12 Interest and dividend income

Dividend income is recognised when the right to receive payment is established. All deposit interest and other income is accounted for on an accruals basis.

2.13 Expenses

Expenses are accounted for on an accruals basis and all amounts have been allocated to the Statement of Comprehensive Income.

2.14 Custodian bank charges

Custodian bank charges include additional fees on top of the asking price of the security. The bid-asking spread is not disclosed as part of a custodian bank charge. This spread is included in the Statement of Comprehensive Income within the fair value net gain or loss.

2.15 Taxation

The Cell has been granted Exempt Status under the terms of The Income Tax (Exempt Bodies) (Guernsey) Ordinance, 1989 to income tax in Guernsey. Its liability is an annual fee of £1,200 (2020: £1,200).

The Cell incurs withholding taxes imposed by certain countries on investment income and capital gains. Such income or gains are recorded gross of withholding taxes in the Statement of Comprehensive Income. Withholding taxes are shown as a separate item in the Statement of Comprehensive Income.

3. Financial risk management

3.1 Strategy in using financial instruments

The Cell's activities and investment objectives expose it to a variety of financial risks: market risk (which is made up of price risk, interest rate risk and currency risk), credit risk and liquidity risk (including cash flow risk). The Cell's overall risk management programme seeks to maximise the return derived for the level of risk to which the Cell is exposed and focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Cell's financial performance. The following policies and procedures to mitigate risk have been in place throughout the year.

The Cell's policy allows it to use derivative financial instruments to both moderate and create certain risk exposure. The fair value of derivative financial instruments as at 30 June 2021 is disclosed under note 8 of these financial statements.

3.2 Market price risk

Market price risk is the risk that the fair value of future cash flows will fluctuate because of changes in market prices, other than those arising from currency or interest rate risk. The Cell is subject to market price risk as they trade primarily in Collective Investment Schemes. Through its investment in traded securities and instruments the Cell is subject to market movements in the equity and bond markets.

All investments present a risk of loss of capital. The Investment Manager moderates this risk through a careful selection of securities and other financial instruments within specified limits. The maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. The Cell's overall market positions are monitored by the Investment Manager and are reviewed by the Board of Directors.

The Cell's market price risk is managed through diversification of the investment portfolio by exposures to varying product categories, hence concentration of risk is minimised. At year end the financial assets at fair value through profit or loss, which are subject to market price risk, are as follows:

	2021		2020	
	Fair Value USD	% of net assets	Fair Value USD	% of net assets
Government Bonds	6,279,236	4.65	4,630,232	9.24
Options	-	-	74,200	0.15
Collective Investments Schemes	127,608,818	94.62	42,677,256	85.22
Investment Trusts	-	-	1,716,306	3.43
	133,888,054	99.27	49,097,994	98.04

The Cell's market price risk is affected by three main components: changes in actual market prices, interest rate and foreign currency movements. Interest rate and foreign currency exchange movements are covered in notes 3.3 and 3.5 respectively. If the market indexes increased or decreased by 10% with all other variables held constant, the increase or decrease respectively in net assets attributable to holders of participating redeemable shares would amount to:

	2021	2020
	Change in fair value USD	Change in fair value USD
Government Bonds	627,924	463,023
Options	-	7,420
Collective Investments Schemes	12,760,882	4,267,726
Investment Trusts	-	171,631
	13,388,806	4,909,799

Momentum Global Managed Fund IC Limited
Annual Report and Audited Financial Statements for the year ended 30 June 2021

Notes to the Financial Statements

3. Financial risk management (continued)

3.3 Interest rate risk

The Cell's interest-bearing financial assets and liabilities expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows.

The majority of the Cell's financial assets and liabilities are non-interest bearing. As a result, the Cell is not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. Any excess cash and cash equivalents are invested at short-term market interest rates.

The table below summarises the Cell's exposure to interest rate risks. It includes the Cell's assets and trading liabilities at fair values, all of which have contractual re- pricing or maturity dates within one month.

As at 30 June	2021	2020
	USD	USD
Net financial assets on which no interest is paid	126,255,357	44,992,911
Net floating rate financial assets	2,346,448	454,558
Net fixed rate financial assets	6,279,236	4,630,232

Should interest rates have increased/decreased by 50 basis points with all other variables remaining constant, the increase/decrease in the net assets attributable to participating redeemable shares would amount to approximately:

As at 30 June	2021	2020
	USD	USD
Net floating rate financial assets	11,732	2,273
Net fixed rate financial assets	31,396	23,151

3.4 Cash flow risk

The Cell holds a significant amount of cash and cash equivalents that expose the Cell to cash flow interest rate risk. The risk exposure here is deemed minimal.

3.5 Currency risk

Currency risk is the risk that the fair value of future cash flows will fluctuate as a result of changes in foreign currency exchange rates. The Cell holds assets, including investments, denominated in currencies other than their functional currency, US Dollars, and therefore it is exposed to currency risk. The exposures are based on the currencies of the underlying assets in the Cell. Where the Cell invests via Collective Investment Funds, the funds are treated as a single asset with its currency of exposure being assumed to be its reporting currency.

The table below summarises the Cell's exposure to currency risks.

As at 30 June	2021	2020
	USD	USD
Net GBP exposure	9,590,000	2,346,837
Net EUR exposure	3,215,721	1,508,127
Net JPY exposure	107,172	110,873
Net ZAR exposure	(24,016)	344

In accordance with the Cell's policy, the Investment Manager monitors the Cell's currency position on a regular basis, and the Board of Directors reviews it periodically. The Cell has the ability to enter into forward foreign exchange contracts in an attempt to mitigate any significant currency risk. Such contracts are used on a regular basis. The contracts which are outstanding at the year end are disclosed in note 8.

Should the Cell's functional currency have strengthened, or weakened, by 5% against other currencies to which it is exposed and all other variables, including the price of all investments, had held constant, the net asset attributable to preference shareholders would have increased, or decreased, as follows:

As at 30 June	2021	2020
	USD	USD
Net GBP exposure	479,500	117,342
Net EUR exposure	160,786	75,406
Net JPY exposure	5,359	5,544
Net ZAR exposure	(1,201)	17

Notes to the Financial Statements

3. Financial risk management (continued)

3.6 Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

There is a risk that an investee company may be unable to satisfy a valid redemption request made by the Cell. The Directors consider that the Investment Manager mitigates this risk by way of its investment process, as described in note 3.2. No such redemption problems have been encountered.

All transactions in listed securities are settled/paid for upon delivery using approved brokers. Delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. Given the relatively short settlement period, and the high credit quality of the brokers used, the risk here is considered to be minimal.

The Cell manages its exposure to credit risk associated with its cash deposits by selecting Northern Trust (Guernsey) Limited as the counterparty to hold all cash deposits for the Cell. The Northern Trust Company is a wholly owned subsidiary of the Northern Trust Corporation. The credit rating for Northern Trust Corporation from Standard and Poor's is A+. The credit rating from Moody's is A2.

The Government bonds held in the Cell's portfolios are Aaa and Aa2 rated by Moody's.

The Cell's maximum exposure to credit risk is the carrying value of the assets on its Statement of Financial Position.

3.7 Liquidity risk

Liquidity risk is the risk that the Cell will encounter difficulty in meeting obligations associated with its financial liabilities. The main liquidity risk is the risk that the Cell may be unable to recover funds invested through the usual redemption processes which may result in the Cell having insufficient funds to settle a transaction on the due date. Due to the nature of the Cell, the majority of investments held are in marketable securities that are readily tradeable and have reported no warnings regarding their ability to process redemptions as normal.

The Cell has the ability to borrow to meet short term liquidity requirements, however to date the Cell has not entered into such arrangements.

The table below analyses the Cell's financial assets and liabilities into relevant maturity groupings based on the remaining period at the Statement of Financial Position date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances, as the impact of discounting is not significant.

	Less than 1 month USD	Between 1 and 12 months USD	2021 Total USD	2020 Total USD
Financial assets at fair value through profit or loss	133,888,054	-	133,888,054	49,097,994
Cash and cash equivalents	2,346,448	-	2,346,448	454,558
Due on issue of participating redeemable shares	4,158	-	4,158	64,237
Securities sold receivable	2,686,605	-	2,686,605	460,000
Dividend receivable	7,897	-	7,897	16,430
Other receivables	614	-	614	546
Due on redemption of participating redeemable shares	(56,918)	-	(56,918)	(30,958)
Securities purchased payable	(3,727,614)	-	(3,727,614)	-
Fair value of derivative financial instruments	37	(168,327)	(168,290)	53,659
Other payables	(99,913)	-	(99,913)	(38,765)
Net assets attributable to holders of participating redeemable shares	(134,881,041)	-	(134,881,041)	(50,077,701)
Net liquidity position	168,327	(168,327)	-	-

Participating redeemable shares are redeemed on demand at the holder's option. However, the Board of Directors does not envisage that the contractual maturity disclosed in the table above will be representative of the actual cash flows, as holders of these instruments typically retain them for the medium to long term.

3.8 Management of capital

The Board, with the assistance of the Investment Manager, manages the capital of the Cell in accordance with the investment objectives and policies. The Cell's overall strategy remains unchanged.

The Cell has no externally imposed capital requirements.

3.9 Fair value disclosure

In the opinion of the Directors, there are no material differences between the net asset values of the underlying assets and fair values of the financial assets and liabilities.

Notes to the Financial Statements

4. Critical accounting estimates and judgements

The fair value of investments is considered to be the quoted, active market prices, or prices as supplied by the fund administrators of the Cell's underlying investments.

Management makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities are outlined below.

The fair value of investments in investee funds that are not quoted in an active market is determined primarily by reference to the latest available redemption price of such units for each investee fund, as determined by the administrator of such investee fund. The Investment Manager may make adjustments to the reported net asset value of various investee funds based on considerations such as:

- the liquidity of the investee fund or its underlying investments;
- the value date of the net asset value provided;
- any restrictions on redemptions; and
- the basis of accounting and, in instances where the basis of accounting is other than fair value, fair valuation information provided by the investee fund's advisors.

The prices are reviewed by the Investment Manager on a periodic basis. The Cell does not hold any Level 3 investments.

5. Portfolio analysis

The Cell's portfolio is organised by focusing on the type of security held, and then secondarily by geographical analysis based on the location of the investment.

The Cell operates using the main sector types disclosed in note 3.2 and the following main geographical areas:

	2021	2020
	USD	USD
Cayman Islands	-	173,493
Channel Islands	4,480,262	3,695,474
Europe	118,765,089	38,666,723
United Kingdom	4,363,467	1,857,872
United States of America	6,279,236	4,704,432
	133,888,054	49,097,994

The geographical segment for listed non-monetary financial assets is considered to be the place of primary listing and for non-listed financial assets where the underlying investment is domiciled.

6. Financial assets at fair value through profit or loss

	2021	2020
	USD	USD
Financial assets at fair value through profit or loss:		
Government Bonds	6,279,236	4,630,232
Options	-	74,200

Investment Trusts	-	1,716,306
Total financial assets at fair value through profit or loss	133,888,054	49,097,994

Movement on financial assets at fair value through profit or loss

Fair value of financial assets at the beginning of the year	49,097,994	40,604,965
Purchases of financial assets	106,045,564	30,358,183
Sales of financial assets	(38,334,143)	(21,657,209)
Realised gains on financial assets	2,386,383	1,304,194
Movement in unrealised (losses)/gains on revaluation of financial assets	14,692,256	(1,512,139)
Fair value of financial assets at the end of the year	133,888,054	49,097,994

Comprising:

Cost at the end of the year	115,021,841	44,924,037
Unrealised gains at the end of the year	18,866,213	4,173,957
	133,888,054	49,097,994

IFRS 13 requires the Cell to classify fair value hierarchy that reflects the significance of the inputs used in making the measurements. The hierarchy has the following levels:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- Level 3 – inputs for the asset or liability that are not based on observable market data (unobservable inputs).

The level in the fair value hierarchy, within which the fair value measurement is categorised in its entirety, is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

Annual Report and Audited Financial Statements for the year ended 30 June 2021

Notes to the Financial Statements

6. Financial assets at fair value through profit or loss (continued)

The determination of what constitutes 'observable' requires significant judgement by the Board. The Board considers observable market data that is readily available, readily distributed or updated, reliable and verifiable, not proprietary and provided by independent sources that are actively involved in the relevant market.

The investments classified as Level 1 consist of financial assets that are actively traded with fair values readily available from recognised exchanges. The Level 1 hierarchy may also include investments in funds that are priced by the underlying administrator where the Cell considers it to be the most advantageous market and would enter into transactions based on those prices.

The investments classified as Level 2 are investments in funds that are actively traded and priced less frequently than monthly but not greater than quarterly for which fair values are obtained from the underlying administrator or fund manager.

The investments classified as Level 3 are investments that are illiquid investments and investments that are traded but priced less frequently than quarterly.

The following table presents the Cell's financial assets and financial liabilities measured at fair value by level within the valuation hierarchy as of 30 June 2021 and 30 June 2020:

30 June 2021

	Level 1 <u>USD</u>	Level 2 <u>USD</u>	Level 3 <u>USD</u>	Total <u>USD</u>
Financial assets at fair value through profit or loss				
Government Bonds	6,279,236	-	-	6,279,236
Collective Investment Schemes	127,608,818	-	-	127,608,818
Investment Trusts	-	-	-	-
	133,888,054	-	-	133,888,054

30 June 2020

	Level 1 <u>USD</u>	Level 2 <u>USD</u>	Level 3 <u>USD</u>	Total <u>USD</u>
Financial assets at fair value through profit or loss				
Government Bonds	4,630,232	-	-	4,630,232
Options	74,200	-	-	74,200
Collective Investment Schemes	42,503,763	173,493	-	42,677,256
Investment Trusts	1,716,306	-	-	1,716,306
	48,924,501	173,493	-	49,097,994

The Cell's cash and cash equivalents and short-term receivables and payables are recorded at carrying value which approximates fair value.

7. Cash and cash equivalents

For the purposes of the Statement of Cash Flows, cash and cash equivalents comprise the following balances with original maturity of less than 90 days:

	2021 <u>USD</u>	2020 <u>USD</u>
Cash at bank	2,346,448	454,558
	2,346,448	454,558

8. Derivative financial instruments

Forward foreign exchange contracts designated as at fair value through profit or loss:

30 June 2021	Amount <u>ZAR/EUR</u>	Maturity Date	Contracted rate	Closing rate	Contract value <u>USD</u>	Market value <u>USD</u>	Financial assets/ (liabilities) <u>USD</u>

Outstanding contract to buy EUR	4,430,000	18/08/2021	0.817062	0.8432414	5,421,864	5,253,537	(168,327)
							(168,290)

30 June 2020	Amount <u>EUR</u>	Maturity Date	Contracted rate	Closing rate	Contract value <u>USD</u>	Market value <u>USD</u>	Financial assets <u>USD</u>
Outstanding contract to buy EUR	1,640,000	15/07/2020	0.917069	0.890353	1,788,307	1,841,966	53,659
							53,659

In accordance with the Cell's investment objectives, the Cell may enter into forward foreign exchange contracts to hedge foreign currency movements they may be exposed to through its investment portfolio. As there is no assurance that these hedges will be effective in achieving the offsetting of changes in cash flows attributable to currency risk on these investments it is the policy of the Cell not to apply hedge accounting.

Annual Report and Audited Financial Statements for the year ended 30 June 2021

Notes to the Financial Statements

13. Dividends payable to participating redeemable shareholders

No dividends were paid during the year (2020: Nil) and the Board does not intend to pay any dividends. All available income will be reinvested.

14. Related-party transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

14.1 Management and Administration fee

The Cell is managed by Momentum Wealth International Limited (the "Manager"), a management company incorporated in Guernsey, providing management services to the Cell under the terms of the management agreement in place.

The Manager is entitled to receive a Management and Administration fee, chargeable at a rate of 0.30% of the NAV of Class A shares per annum and 0.21% of the NAV of Class B and Class C shares per annum, which will accrue at each valuation point, based on the current valuation of the Cell, payable monthly in arrears and is subject to a minimum fee of USD22,000, per annum, or currency equivalent.

The Administrator is entitled to such remuneration as agreed between the Manager and the Administrator from time to time and such remuneration is paid by the Manager out of the Management and Administration fee received from the Cell.

Management and Administration fee charged during the year and accrued at year end:

	2021	2020
	USD	USD
Charged during the year	210,249	104,576
Accrued at year end	<u>27,358</u>	<u>10,192</u>

Management Fee rebate received during the year and accrued at year end:

	2021	2020
	USD	USD
Received during the year	917	184
Accrued at year end	<u>-</u>	<u>-</u>

14.2 Investment Management fee

The Manager has appointed an Investment Manager, Momentum Global Investment Management Limited (the "Investment Manager"), a UK registered company, to manage the investment portfolio of the Cell. The Investment Manager is entitled to receive a fee of 0.50% of the NAV of Class A shares per annum and 0.30% of the NAV of Class B and Class C shares per annum (the "Investment Management fee"). The Investment Management fee will accrue as at each Valuation Point, based on the current valuation of the Cell and is payable monthly in arrears.

Investment Management fee charged during the year and accrued at year end:

	2021	2020
	USD	USD
Charged during the year	312,075	159,085
Accrued at year end	<u>40,307</u>	<u>15,426</u>

14.3 Custodian fee

The Cell has engaged the services of Northern Trust (Guernsey) Limited (the "Custodian"), to provide custodian services. The Custodian is entitled to receive a fee chargeable on a sliding scale in respect of all Share Classes, as follows, subject to a minimum of USD8,000 per annum.

Fee % of NAV per annum	Cell NAV
0.04%	Up to USD70m
0.03%	From USD70m to USD140m
0.02%	Over USD140m

Custodian fee charged during the year and accrued at year end:

	2021	2020
	USD	USD
Charged during the year	36,742	19,538
Accrued at year end	<u>7,920</u>	<u>1,734</u>

Momentum Global Managed Fund IC Limited
Annual Report and Audited Financial Statements for the year ended 30 June 2021

Notes to the Financial Statements

14. Related-party transactions (continued)

14.4 Distribution Partner's fee

The Cell has appointed the Manager, Momentum Wealth International Limited (the "Distribution Partner"), as distribution partner to promote and market the Cell. The Distribution Partner is entitled to receive a fee of up to 0.10% of the NAV of Class A shares per annum (the "Distribution Partner fee") and will accrue as at each Valuation Point, based on the current valuation of the Cell and is payable monthly in arrears. No Distribution Partner Fee has been accrued and charged in respect of the Class B and Class C shares. The Distribution Partner will also be entitled to be paid any expenses and disbursements reasonably incurred in performance of its duties.

Distribution Partner fee charged during the year and accrued at year end:

	2021	2020
	USD	USD
Charged during the year	16,409	13,566
Accrued at year end	1,714	1,211

14.5 Board of Directors' remuneration

The Directors' fees in respect of the Cell shall not exceed USD20,000 (or currency equivalent) in any twelve month period. In addition, the Directors shall be entitled to be repaid for all reasonable out of pocket expenses properly incurred by them in the performance of their duties to the Cell. Such fees and expenses shall be paid out of the assets of the Cell alone and not from the Cellular assets of other Cells of the Company or assets of the Company itself.

The Directors waived their right to a fee in 2021 (2020: Nil).

15. Ultimate controlling party

In the opinion of the Directors, on the basis of the shareholdings advised to them, the Cell has no ultimate controlling party.

16. Reconciliation of published valuation to financial statements

	2021	2020
	USD	USD
Net assets per financial statements	134,881,041	50,077,701
